Pre-Number Concepts - Worksheet 3 [ANSWER KEY]

Grade 1 | Mathematics | Ch 1: Pre-Number Concepts | Total Marks: 19 | Time: 30 Minutes

Q1. Which of these animals is BIGGER in size? [1 Mark]

Correct Answer: Elephant

Explanation: An elephant is much larger in physical size than tiny insects.

Q2. Which object stands TALLER from the ground? [1 Mark]

Correct Answer: Giraffe

Explanation: A giraffe stands several meters tall, higher than smaller animals.

Q3. A pencil is placed inside a pencil box. Where is the pencil? [1 Mark]

Correct Answer: Inside

Explanation: The pencil is contained within the box, so it is inside.

Q4. Which feather is LIGHTER in weight? [1 Mark]

Correct Answer: A bird feather

Explanation: A feather floats on air because it is extremely light.

Q5. Sam has a bowl with 5 red apples, and Nina has a bowl with 8 red apples. Who has MORE apples? [1 Mark]

Correct Answer: Nina

Explanation: Nina has 8 apples, which is greater than Sam's 5 apples.

Q6. At the playground, Mia sits on the top of the slide while Toby stands at the bottom. Where is Mia? [1 Mark]

Correct Answer: At the top

Explanation: Mia is positioned at the highest point of the slide.

Q7. During clean-up time, Liam puts all crayons inside the drawer. Now, where are the crayons? [1 Mark]

Correct Answer: Inside the drawer

Explanation: Liam placed them within the drawer.

Q8. Look at the line: Tree, [?], Grass. Which object is TALLER than grass but SHORTER than a tree? [1 Mark]

Correct Answer: A bush

Explanation: A bush is medium in height-taller than grass and shorter than a mature tree.

Q9. Complete the rule: If an elephant is big, then a mouse is [?]. [1 Mark]

Correct Answer: Small

Explanation: The opposite of big in size is small.

Q10. Leo looks at a basketball and a coin and says: 'The coin is bigger because it is shiny.' What is his error? [1 Mark]

Correct Answer: He confused shiny with physical size

Explanation: Size describes how much space an object occupies, not its shine or color.

Q11. Maya claims: 'A long snake is taller than a tall tree.' Why is Maya incorrect? [1 Mark]

Correct Answer: Length along the ground is not height standing upright

Explanation: Height measures vertical standing distance, while length measures horizontal distance.

Q12. Why must two objects be placed on the same flat floor when comparing their heights? [1 Mark]

Correct Answer: So the comparison starts from the exact same base level

Explanation: If one object is on a table and another on the floor, the height comparison is unfair.

Q13. If a balloon is bigger in size than an apple, is the balloon always heavier? **[1 Mark]**

Correct Answer: No, a balloon is filled with light air so it is lighter

Explanation: Size and weight are different properties; a large balloon is lighter than a dense apple.

Q14. Animal A is taller than Animal B. Animal C is taller than Animal A. Which animal is the TALLEST of all three? **[1 Mark]**

Correct Answer: Animal C

Explanation: Since C is taller than A, and A is taller than B, C must be the tallest.

Q15. Box 1 is inside Box 2. Box 2 is inside Box 3. Where is Box 1 in relation to Box 3? **[1 Mark]**

Correct Answer: Inside Box 3

Explanation: Because Box 1 is enclosed within Box 2, which is inside Box 3, Box 1 is also inside Box 3.
