Division and Equal Sharing - Worksheet 5 [ANSWER KEY]

Grade 4 | Mathematics | Ch 14: Division and Equal Sharing | Total Marks: 19 | Time: 30 Minutes

Q1. Calculate: 63 / 9 = [1 Mark]

Correct Answer: 7

Explanation: 63 divided by 9 equals 7 because 7 x 9 = 63.

Q2. Find the quotient and remainder: 66 / 9 = [1 Mark]

Correct Answer: 7 R 3

Explanation: 9 x 7 = 63. 66 - 63 = 3 left over, so 7 R 3.

Q3. What is 81 / 9? [1 Mark]

Correct Answer: 9

Explanation: Since 9 x 9 = 81, 81 / 9 = 9.

Q4. Evaluate: 0 / 9 = [1 Mark]

Correct Answer: 0

Explanation: Zero divided by any non-zero number is always 0.

Q5. At the Library Book Donations Box, a supervisor has 126 items to divide equally among 9 work stations. How many items does each station get? [1 Mark]

Correct Answer: 14 items

Explanation: 126 / 9 = 14 items per station.

Q6. A baker has 68 cupcakes and packs them into boxes of 9. How many full boxes are packed, and how many cupcakes are left over? [1 Mark]

Correct Answer: 7 boxes and 5 left over

Explanation: 68 / 9 = 7 with a remainder of 5 (since 5 < 11).

Q7. During an event at the Library Book Donations Box, 49 participants need to sit in rows of 9. What is the minimum number of rows needed so everyone has a seat? [1 Mark]

Correct Answer: 6 rows

Explanation: 49 / 9 = 5 with 4 people remaining. A 6th row is required to seat everyone.

Q8. Find the missing dividend: [?] / 9 = 8 [1 Mark]

Correct Answer: 72

Explanation: Multiply quotient by divisor: 8 x 9 = 72.

Q9. Find the missing divisor: 189 / [?] = 21 [1 Mark]

Correct Answer: 9

Explanation: Divide total by quotient: (189) / (21) = 9.

Q10. A student calculated 69 / 9 and wrote the answer as '6 R 15'. What is the mistake? [1 Mark]

Correct Answer: The remainder (15) is greater than the divisor (9), meaning more whole groups can be formed

Explanation: The remainder must always be strictly less than the divisor (9).

Q11. Tariq solved 24 / 3 = 8 and checked his work by doing 8 - 3 = 5. What is the correct way to check a division problem? [1 Mark]

Correct Answer: Multiply the quotient by the divisor (8 x 3 = 24)

Explanation: Inverse of division is multiplication: quotient x divisor = dividend.

Q12. When any whole number is divided by 5, what are all the possible remainders that can result? [2 Marks]

Correct Answer: 0, 1, 2, 3, or 4

Explanation: A remainder must be strictly smaller than the divisor 5, so possible remainders are 0, 1, 2, 3, 4.

Q13. If a number is divisible by both 2 and 3 with zero remainder, which of the following numbers must it also be divisible by? **[2 Marks]**

Correct Answer: 6

Explanation: A number divisible by both 2 and 3 is divisible by their product (2 x 3 = 6).

Q14. A school library received 259 new books. If each shelf holds exactly 9 books, how many shelves will be completely full, and how many more books are needed to fill the last incomplete shelf? **[2 Marks]**

Correct Answer: 28 shelves full, and 2 more book(s) needed

Explanation: (259) / 9 gives the number of full shelves and remainder.

Q15. Three friends share a bag of marbles equally and each gets 9 marbles with 1 marble left over. How many marbles were in the bag originally? **[2 Marks]**

Correct Answer: 28 marbles

Explanation: (Quotient x Divisor) + Remainder = (9 x 3) + 1 = 28 marbles.
